Samantha Lara

BIOLOGY PRE-NURSING

“The life in front of you is far more important than the life behind you.”

- Joel Osteen

Samantha Lara (Sam) was born and raised in San Antonio, Texas. She graduated from Thomas Edison High School, where she was a member of the National Honor Society. Growing up she always wanted to become a veterinarian, but her plans changed and she decided to become a registered nurse instead.

She always liked school and learning, so going straight to college after high school was not a question for her. She is also into beauty and recently discovered the field of nurse esthetician, so that also motivated her.

Samantha is now currently seven months pregnant. She is so excited and blessed for this next journey in her life. Now she feels even more motivated to finish school so she and her family can have a better future.

After graduation, she plans to transfer to the University of Texas Health Science Center at San Antonio to earn a bachelor’s degree in nursing.
