Diana Valverde

MEDICAL ASSISTING

*“Nothing is impossible. The word itself says
‘I’m possible!’”*

- Audrey Hepburn

Diana Valverde grew up in San Antonio. She graduated from Thomas Jefferson High school in 2018, where she was part of the Spanish National Honor Society and the leader of her architecture class. She found her high school sweetheart in 2015 and got married in 2019, helped provide her with the support to continue achieving her dreams.

After taking a long break from school, Diana decided to return and continue my studies for an associates in applied science. She decided to return back to college and complete the medical assistant course not just to make difference but also to help people in need. Being a member of The National Society of Leadership and Success while at SAC taught her valuable skills and leadership.

She plans to attend to University of Texas at San Antonio and earn a bachelors degree. She aspires to make a difference in society and serve in community clinics to help her fellow citizens.

Her experience at San Antonio College has not only provided her with the learning tools and skills necessary to continue her education at a higher level, but also with the inspiration and dedication to keep her pushing to make her dreams come true.
