## INTRODUCTION

The San Antonio College Fact Book provides general statistical information about the College which may be useful to those engaged in planning, preparing reports, writing grant proposals, or other endeavors within the College.

It is important for the reader to be aware that data presented in this publication may differ slightly from statistics found in other College and District reports. Such variances may result from differences in the source of information used, the date on which the report was generated, or the reporting period included in the report. For these reasons, the source of the information in each table and graph is cited. Trends should be tracked using identical sources each semester.

## HISTORY

San Antonio College was established as University Junior College in September 1925, under the auspices of the University of Texas. The following year control of the college was transferred to the San Antonio Independent School District and the name was changed to San Antonio Junior College. Following passage of state legislation authorizing junior college districts, the San Antonio Union Junior College District was formed in 1945 and in 1946 assumed control of San Antonio Junior College and its sister college, St. Philip's Junior College. In 1948, San Antonio Junior College's name was changed to San Antonio College, and in 1951, the college was moved to its present location on San Pedro Avenue. Five hundred students were enrolled at that time. The Southern Association of Colleges and Schools granted accreditation to the college in 1955.

In the late 1960s San Antonio College became a comprehensive community college by expanding offerings in occupational and technical courses and by assuming the San Antonio Independent School District's continuing education program. The name of the college district was changed to San Antonio Community College District in 1978 and in 1982 the district was renamed the Alamo Community College District.

In support of the mission of the Alamo Community College District, San Antonio College responds to Bexar County's diverse community by providing high quality general education, liberal arts and sciences, career education, continuing education, and developmental education. The college has an average semester enrollment of 22,000 credit students and an average annual enrollment of 16,000 other-than-credit students. San Antonio College is the largest single-campus community college in Texas and one of the largest in the United States.

## MISSION STATEMENT

**San Antonio College – responsive education through excellence, accessibility and diversity.** San Antonio College is a public community college which provides and supports the educational and lifelong learning needs of a multicultural community. As a leader in education, San Antonio College is committed to excellence in helping students reach their full potential by developing their academic competencies, critical thinking skills, communication proficiency, civic responsibility, and global awareness.

**San Antonio College fulfills its mission by offering the following:**

- Transfer education designed to provide students with the first two years of the bachelor's degree.
- General education courses in the liberal arts and sciences to support all college degree programs.
- Career preparation provided through a wide range of programs to prepare students for immediate employment.
- Developmental studies for students needing to bring their basic skills to a level appropriate for college work.
- Continuing education to offer a variety of training, licensure and professional programs.
- Academic support services that include a comprehensive learning resource center and basic skills activities that complement instruction.
- Student support services to provide assessment, advising, counseling, tutoring, financial assistance, and social and cultural activities for all students, including those with special needs.
- Promotion of cross-cultural understanding and appreciation through instructional and social activities that contribute to cultural awareness and interaction.
- Involvement of business, industry, and professional groups in planning and revising educational programs to meet workforce needs.
- An environment conducive to learning through an attractive physical campus and wellness-oriented programs and services.
- Continuous assessment of programs and services and the utilization of results for improvement.
- Operation of the college within available fiscal resources to provide accountability to taxpayers of the Alamo Community College District.

AAS = Associate in Applied Science Degree  
(60 - 72 Semester Credit Hours)  
Level I Certificate = 15 - 42 Semester Credit Hours  
Level II Certificate = 43 - 59 Semester Credit Hours

Local Certificates = Less than 14 Semester Credit Hours  
MS = Marketable Skills Certificate = 9 - 14 Semester Credit Hours  
Enhanced Skills Certificate = 6 - 15 Semester Credit Hours in  
Addition to AAS Degree Requirements

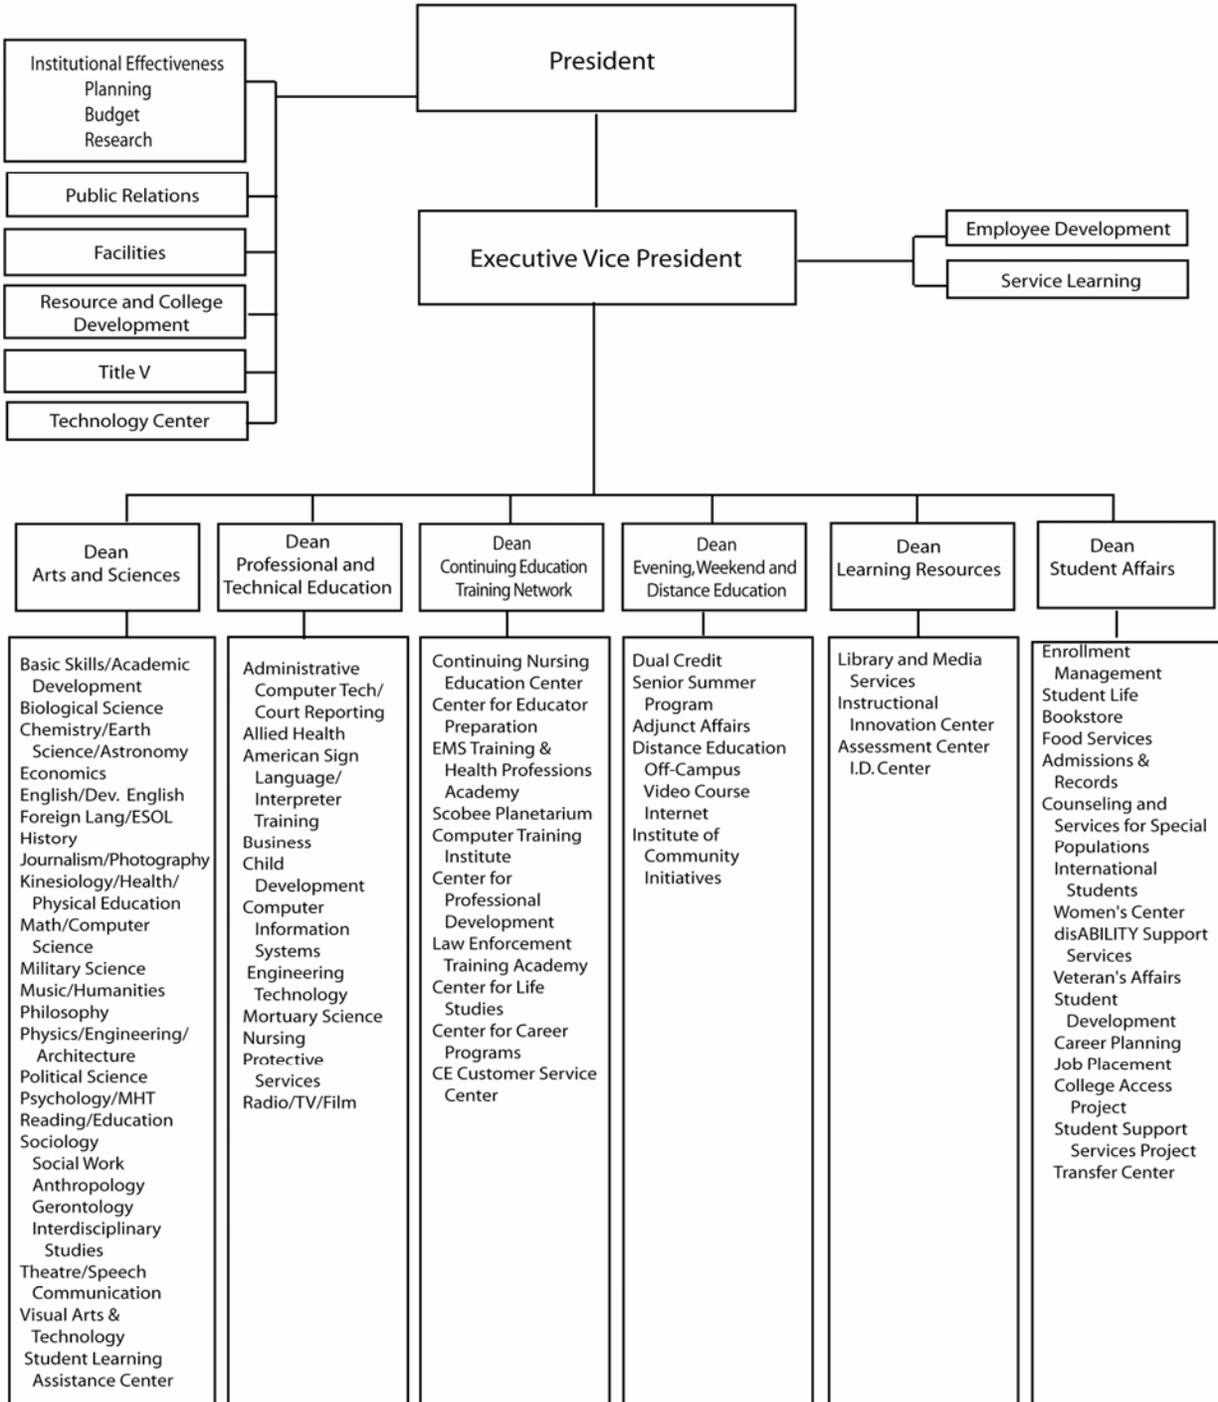

## ACCREDITATION & AFFILIATIONS

San Antonio College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) to award associate degrees. The Mortuary Science Program is accredited by the American Board of Funeral Service Education (ABFSE). The Dental Assisting Program is accredited by the American Dental Association Commission on Dental Accreditation. The Medical Assisting Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP). The Department of Nursing is accredited by the National League for Nursing Accrediting Commission (NLNAC).

The college is also an active member of the American Association of Community Colleges, the Community College Consortium, Association of Texas Colleges and Universities, the National League for Nursing, the Southern Association of Junior Colleges, the Texas Junior College Association, the Texas Public Community and Junior College Association, Texas Educational Theatre Association, and the Texas Association of Music Schools.

## DIVISIONS

### ARTS AND SCIENCES

The **Division of Arts and Sciences** at San Antonio College offers a comprehensive Liberal Arts curriculum designed to satisfy the requirements of the first two years of a baccalaureate degree. The core curriculum provides a foundation of knowledge designed to cultivate critical thinking, build communication skills, and promote understanding of our diverse community by providing students with real-world applications to classroom instruction that will enable them to make a difference in society. Learning becomes the real reward of doing.

San Antonio College students benefit from a challenging curricula and student-centered environment fostered by over two-hundred and fifty full-time, credentialed faculty in the Division of Arts and Sciences. There are nineteen Associate in Arts and three Associate in Sciences degrees available across the disciplines as well as four certificate programs specifically offered in Mexican-American Studies, International Studies, Foreign Languages Spanish or Women's Studies by the Division of Arts and Sciences.

Academic accords such as 2+2s, Articulation Agreements, and Memorandums of Understanding (MOUs) afford students the opportunity to complete the first two years of a baccalaureate degree which are available in diverse fields of study from an array of domestic and foreign four-year institutions. Retention is a priority and facilitated through remedial opportunities and mandatory scholastic intervention facilitated through experienced counselors and advisers dedicated to helping students achieve. In addition, various student and faculty administrative services are provided through the Office of the Dean of Arts and Sciences.

### PROFESSIONAL AND TECHNICAL EDUCATION

The Professional and Technical Education Division offers degrees and certificates for the purposes of job or career entry; career development and change; industry/business start-up and development; transfer to four-year degree programs; and technical services to industry. All of the degrees/certificates are linked with the employing community through active advisory committees, cooperative or part-time work experience, direct placement, and career development activities, as well as the sharing of work-site laboratories and equipment.

Designed to teach specific professional/technical skills, the Associate in Applied Science (AAS) Degree is awarded to students who successfully complete an approved two-year technical curriculum of integrated general education and specialty courses with at least 15 semester hours of general education. Each degree consists of 60 – 72 semester hours of courses. The requirements for each major in the AAS degree are clearly shown in the curriculum offerings listed in the *San Antonio College Bulletin*. The AAS Degree may transfer all or in part to senior colleges and universities.

Numerous certificates are associated with the degrees. A Level I certificate consists of 15 to 42 semester hours of prescribed coursework. A Level II certificate consists of 43 to 59 semester hours of prescribed course work. Both certificates require at least 25% of the required semester hours be completed at San Antonio College. Course work from these two certificates can be applied toward an AAS degree.

A Local Certificate consists of less than 15 semester hours of prescribed course work representing achievement of identifiable skill proficiency. A Marketable Skills Certificate consists of 9 to 14 semester hours of prescribed course work making a student eligible for immediate employment or adds to the student's marketability to employers. Both certificates require at least 50% of the hours be completed at San Antonio College.

An Enhanced Skills Certificate is associated with an AAS degree program. The associated AAS must be a prerequisite for this certificate. The Enhanced Skills Certificate is well-focused, clearly related to the program, and provides skills beyond career entry. It consists of 6 to 15 semester hours and may extend an AAS award to an overall total that shall not exceed 87 semester hours. Students may obtain an AAS without enhanced certificates; however, an AAS is required to obtain an Enhanced Skills Certificate.

For a complete listing of the Associate in Applied Science Degrees and related certificates, please see "Certificates and Degree Programs for Professional and Technical Education" in the College Profile section of this book.

## TECH PREP

San Antonio College is engaged in major technical and professional career preparation by providing continuity of learning and quality educational opportunities for all students. The Tech Prep/Associate Degree program is a significant component of this concept providing educational and career preparation in technical fields to high school students who will be the workforce of the future.

As a member of the Alamo Region Tech Prep Consortium, San Antonio College works with area high schools to provide a way for students to start a college technical major in high school and complete the program of study at the college resulting in an Associate of Applied Science degree. The high school curriculum includes rigorous academics and a coherent sequence of technical courses in the major. College and high school faculty collaborate jointly to develop competency-based, industry validated programs of study to insure graduates of the Tech Prep/Associate Degree program have the knowledge and skills to obtain employment in a high skill/high wage job. At no additional cost, students may earn college credit for high school courses that are articulated with the equivalent college courses.

San Antonio College currently offers the following Tech Prep programs of study: Accounting Technology, Administrative Assistant, Business Management, Child Development, Communications/Radar Electronics, Computer-Aided Drafting and Design Technology, Court Reporting, Criminal Justice, Dental Assisting Program, Graphic Arts, Legal Administrative Assistant/Secretary Option, Marketing Management, Medical Terminology, Nuclear Electronics, Public Administration, Radio, Television and Film, and Records Management. Visit [www.alamotechprep.org](http://www.alamotechprep.org) to view a current list of Tech Prep programs of study or contact Alamo Region Tech Prep Consortium at 210-587-4436.

## CONTINUING EDUCATION TRAINING NETWORK

Continuing Education and Workforce Development provides nontraditional educational opportunities to meet the needs of students and employers in the San Antonio area. Professional and Technical short courses are offered for business, industry, professional groups; seminars and workshops are developed to complement and supplement in-house training and staff development programs. These non-traditional courses are developed in collaboration with college faculty and community experts. Other-than-credit courses and activities are offered on campus and throughout the community with dates and times arranged for the convenience of the students. Continuing Education assists departments and divisions by serving as an outreach mechanism for channeling interested students into appropriate credit programs within the college.

Certification programs are offered for managers, secretaries, law enforcement officers, private security guards, emergency medical technicians, pharmacy technicians, real estate agents, insurance agents, payroll professionals and health care personnel. Community service programs include conversational languages, personal development and life skills courses, summer courses for children and planetarium programs for the general public. Parallel and integrated programs include classes in General Education Development (GED) and English as a Second Language skill.

## EVENING, WEEKEND AND DISTANCE EDUCATION

Evening course offerings include regular academic courses leading to college degrees and certificate programs, developmental education courses, and other courses planned to be of community service and vocational interest to adults. Courses are offered if there is sufficient demand. Late afternoon, evening, weekend and distance education classes (off-campus courses and video course/Internet/interactive courses) are scheduled for the convenience of students.

## ADJUNCT AFFAIRS

The Office of Adjunct Affairs serves San Antonio College by offering a full-time employee who advocates adjunct faculty concerns acting as liaison with full-time faculty participating in relevant college and district activities, acting as a channel of communication for students, providing timely, relevant, important information to the adjunct faculty in administrative and pedagogical areas, while promoting collegiality among all faculty, supporting professional involvement and development and promoting high educational standards and practices.

## COMMUNITY INITIATIVES

K-16 initiatives such as the Bridges Partnership, Family Learning Academy, Peer Mentorship, Dual-Credit and the Senior Summer Program are initiatives pre and post college that brings about long-term generational change in the attitudes toward higher education increasing the numbers of ACCD boundary residents who obtain post-secondary education.

### FAMILY LEARNING ACADEMY

The Family Learning Academy consists of two components, the student mentorship ladder and the family/community councils. The community component will consist of four Parent Councils (“Consejos”), one in each of the following high schools (Jefferson, Edison, Fox Tech, Lanier) made up of ten 4<sup>th</sup> through 12<sup>th</sup> graders’ guardians trained to be “Educational Advisors” or “Promotores de Educacion.” Parents/Guardians are selected with assistance from Community Liaisons, Student Liaisons, School Counselors/Social Workers, Parent/Teacher organizations and community organizations. During recruitment we find parents with connections to each of the many community centers around the West-Central and barrios, including ESL/GED centers, YMCA/YWCAs, housing projects, health centers, etc, so that they can act as Education Advisors to the populations served at these community locations.

The Family/Community Councils meet once or twice a month for parent training and to implement a concerted education promotion effort. Sessions are held in Community and Adult Education Centers close to the selected high schools. Parent/Community sessions include: The Parent Child Relationship, Math Made Easy, First Steps to School Success, Investigating our World through Science, Crisis Prevention Intervention/Behavior Management, Reading and Writing Fundamentals, and Parent/Community Leadership. Parents/Communities are then introduced to Community Outreach Techniques, and are given a basic curriculum/guide that they can use to educate peers, which will include tools for education and for evaluation of their effectiveness. Sessions are bilingual and bicultural, and include field trips to San Antonio College, with a “Graduation” and tour of the campus. Parent/Community Council members practice the curriculum on one another and their families and take their new knowledge into their communities as “Education Advisors” or “Promotores de Educacion.”

Parents also provide input and make recommendations relative to outreach and education promotion. While providing education advice to peers, Family/Community council members also consult with SAC personnel on personal and community issues as well as gathering information for furthering their own educations. Advisors work in community centers and the schools as Education Advisors to the populations served there. In this way San Antonio College spreads the promotion of the college education beyond the schools, among service providers and into the local areas of the SAC community.

Incentives for parent/community advisors are scholarships for up to \$500 a year, depending upon participation. Participants attend a Graduation/Appreciation Ceremony at SAC late Spring/early summer. Participants recruit subsequent generations of mentors and advisors, and mentor/advisor activities are intertwined, especially training, referral, “graduation” and award activities.

### PEER MENTORSHIP

The Peer Mentorship Project is a year-round mentorship ladder. The 7<sup>th</sup> and 8<sup>th</sup> grade students from feeder institutions of the target institutions (Jefferson, Edison, Fox Tech, Lanier) who have become successful students are selected to mentor 6<sup>th</sup> graders. SAC freshmen who are successful Alumnus of the target secondary institutions are also selected to mentor 9<sup>th</sup> through 11<sup>th</sup> graders. San Antonio College’s Community Outreach Coordinator assists in mentor and mentee selection by Family/Community Specialists at the schools, by counselors and teachers, and by SAC counselors and faculty. Students are selected for their potential to maintain mentor/mentee relationships over their entire educational lives, and are provided with training and tools to become effective mentors. An ongoing support system made up of Extended Student Services Staff, School personnel and other key education “gatekeepers” will also assist them. Incentives for student mentors are scholarships for up to \$1,000 a year, depending upon participation. Participants attend an Appreciation Ceremony at SAC each Spring.

There are ancillary programs, projects and benefits to this Pilot. Once relationships have been forged with the schools through the student mentorship, student mentors who attend SAC and other Service Learning activities can act as “Ambassadors” to classrooms in these schools, making presentations to students at all levels about what it means to go to college. Service Learning volunteers may also bring “life skills” presentations based on what they are learning in their college classrooms to elementary, middle and secondary students, on subjects as diverse as parenting, personal finance, and/or art.

## DUAL CREDIT

The Dual Credit Program allows a student to enroll in a community college to earn college level credit while at the same time fulfilling high school academic requirements. These courses are offered at local and area High School campuses. The Dual Participation Program allows a student to attend a local college to earn credits which can fulfill high school graduation requirements and earn college level credit. The college makes the final determination on all admissions to their courses. If the student does not pass a dual-credit or dual-participation course that is required for graduation, the student will not receive credit and will not graduate. The college makes the final determination on all admissions to their classes.

Tuition and fees are waived for up to two courses per semester (one course if you are a freshman or sophomore in high school). The dual-credit courses will apply to an associate's degree at San Antonio College and may transfer to other colleges or universities. As with all transferring courses, it is up to the accepting college or university to honor dual-credit course work.

In order to qualify for dual-credit classes, you must have met the minimum requirements in the areas required for the course being taken.

## SENIOR SUMMER PROGRAM

Of the 195 students enrolled on census date during the 2004 summer term, 138 enrolled at SAC for the 2004 Fall Semester for a transition rate of 71%. The Completion Rate was 92% while the Productive Grade Rate was 94%. Approximately \$144,308 in financial aid was granted to the 195 students enrolled during the summer program while \$271,258 in financial aid was granted to the 138 students that transitioned to the 2004 Fall Semester.

Approximately 62 students were recruited from the neighborhood high schools (Jefferson, Edison, Fox Tech & Lanier) and granted \$45,213 in financial aid during the summer term. Approximately \$87,395 in financial aid was granted to the 49 students who transitioned to the 2004 Fall Semester.

## DISTANCE EDUCATION & SAC ONLINE

**The Distance Education Center** at San Antonio College provides innovative instructional delivery methods affording students access to college through flexible scheduling available through SAC Online ([www.accd.edu/sac/online](http://www.accd.edu/sac/online)). Within the framework of the college mission and goals, Distance Education works with all academic departments, the local business community, and the cities of Seguin, New Braunfels, Kerrville, Bandera and Spring Branch to develop educational responses to newly identified needs. The Distance Education Center also works with all Texas community colleges and serves as a provider of instruction through the Virtual College of Texas.

Traditional courses, as well as video courses (courses broadcast by television or available in video format), DVD, Blended courses and Internet courses, are available to students in and out of Bexar County. These innovative college options are used to respond to the non-traditional educational needs within our community. Distance Education offers courses at area high schools, military bases, the new Central Texas Technology Center, Citicorp, and the cities of Seguin, New Braunfels and Kerrville. Internet courses and online degrees are available to local students, out-of-state and out-of-country students. Every semester, San Antonio College serves approximately 500 out-of-state students and 100 out-of-country students through SAC Online.

Distant learners can access the following online student services: online registration, online counseling, online tutoring, online library services, and an online self-evaluation to determine if Internet instruction is appropriate for them, technical support, and other student support services are also available.

**The Internet Skills Center**, funded by the Department of Education is also available to all SAC students to facilitate Internet learning. All San Antonio College students (in San Antonio and out-of-state) can access three instructional modules, at no cost to obtain skills in: 1) basic computer skills; 2) web-based research skills; and 3) Internet course readiness skills to successfully complete Internet courses (now available online through SAC Online at [www.accd.edu/sac/online](http://www.accd.edu/sac/online)). The Internet Skills Center at San Antonio College is the only center of its kind in San Antonio.

## LEARNING RESOURCES

### LIBRARY AND MEDIA SERVICES

Library and Media Services, located in the Moody Learning Center, is a vital, technologically advanced center of learning and exploration for students, staff, faculty and the community. Supplementing the book, microfilm and government document collection of approximately 200,000 titles are 3,500 current periodical subscriptions and more than 7,000 videotapes, computer files, and sound recordings.

Informational resources owned by the Department, as well as by the other ACCD college libraries, are listed in the online catalog. The catalog is accessible from the LMS homepage [<http://www.accd.edu/sac/lrc/>], as are additional resources; these include the World Wide Web and numerous databases and indexes, many of which provide the full text to magazine, journal and newspaper articles. LMS provides the use of more than fifty public computer stations where users may access these resources. SAC students, staff, and faculty may also access all web-based databases and indexes off campus through the LMS's proxy server.

Also available through the LMS homepage are electronic forms that allow users to request Interlibrary Loan Materials and seek reference assistance through the "Ask a Librarian" service. Remote access to the catalog, web-based databases and indexes, Interlibrary Loan, and on-line reference assistance enhances learning opportunities for all Library users, and is vital for Distance Education students.

LMS is equipped with two state-of-the-art electronic classrooms where librarians teach students search strategies and techniques for finding relevant information using print materials, the online catalog and databases, and the World Wide Web. The Audiovisual Center supports classroom instruction and campus activities through its equipment circulation, graphic and photographic services, and AV repair. The Student Multimedia Lab provides students with a facility for class-related design and production needs. The Educational Multimedia Center provides a contemporary studio, classroom video recordings, teleconferencing services, an editing station, and the means to broadcast video courses directly to students' homes.

Through individual and group instruction, Librarians strive to reduce "library anxiety," increase student opportunities for academic success, and ensure that each student becomes an independent and life-long library learner.

## INSTRUCTIONAL TECHNOLOGIES

The **Department of Instructional Technologies** was established to coordinate instructional technology initiatives at San Antonio College. The Department coordinates San Antonio College instructional technology activities with other organizations in the Alamo Community College District, Virtual College of Texas, and other institutions of higher education to provide an official location to centralize information related to campus instructional technologies, faculty and staff training for all academic and administrative units, Internet course development, and videoconferencing. The Department of Instructional Technologies serves the college in the following areas:

### INSTRUCTIONAL TECHNOLOGY & INNOVATION CENTER

The **Instructional Technology & Innovation Center**, established in 1995 as the Instructional Innovation Center under a Title III Grant, continues to provide training and assistance for faculty and staff using state-of-the-art equipment and software.

### TECHNOLOGY TRAINING PROGRAM

The **Technology Training Program** is provided free of charge for the faculty, staff, and administration of San Antonio College and the Alamo Community College District. Training is offered through monthly scheduled classes published on the departmental Web site at <http://www.accd.edu/sac/iic/training/>. Individuals outside the Alamo Community College District may attend training by paying a \$25 fee for each class. For a complete list of classes and to register, please call 210-733-2188.

### INTERNET COURSE CERTIFICATION PROGRAM

The Internet Course Certification Program was developed to ensure skill attainment of faculty developing Internet courses, a consistent high quality of course materials, and ADA compliance. Faculty or staff completing all requirements may be awarded a certificate verifying their ability to develop, teach, or administer Internet-based courses. There are three levels of Internet Course Certificates:

#### **Level I – Internet Course Administrator’s Certificate:**

To assist chairpersons and administrators in the evaluation of future Internet course development and the selection of Internet course instructors. May supervise but may not teach or develop Internet courses.

#### **Level II – Internet Course Instructor Certification:**

Individuals completing this training may teach existing Internet courses but may not develop Internet courses. Requirements include attending an eighteen hour course of study and modifying an existing Internet course to include personal information. This modified Internet course is reviewed to assure that it conforms to the guidelines for Internet courses found at <http://www.accd.edu/SAC/iic/intcoord/inet/default.htm>

#### **Level III – Internet Course Developer’s Certification:**

Individuals completing all requirements may develop new Internet courses or teach existing Internet courses. Requirements include attending a twenty-four hour course of study and developing Web pages that represent all components of an Internet course. Certification will be awarded on completion of the training and final review of the Internet course materials. Criteria for Internet course development may be found at <http://www.accd.edu/SAC/iic/intcoord/inet/default.htm>.

The Internet Course Developer’s Certification entitles the recipient to 2.4 CEUs (Continuing Education Units) awarded by the San Antonio College Continuing Education Department.

### WEB DEVELOPER’S CERTIFICATION PROGRAM

These certifications were designed to provide training for individuals who must design Web pages for themselves or their department but do not plan to teach on the Internet. There are currently two levels of certification for Web Developers at which are described at <http://www.accd.edu/SAC/iic/Web-Cert/default.htm>.

### Level I – Web Developer’s Certification

Training for this certification is comprised of fourteen hours of basic Web development and site management. Individuals must develop a Web site, which incorporates all elements of the training. Certification will be awarded on completion of the training and final review of the Web site.

### Level II – Web Developer’s Certification

A prerequisite for this certification is the completion of Level I Web Developer Certification plus eighteen hours of more advanced Web development training and the individual must incorporate all elements of the additional training into their Web site for certification. Certification will be awarded upon final review of the Web site.

## VIDEOCONFERENCING CENTER

The **Videoconferencing Center** provides equipment and facilities for the transmission of courses or meetings to distant locations. Videoconferencing, often referred to as two-way interactive television, enables two or more groups, separated by great distances, to see and speak with one another as if in the same room. Technical support for the videoconferencing equipment is provided by the Technology Center.

### **Videoconferencing Training and Scheduling**

Training is provided to faculty or staff on skills needed to teach by way of two-way, interactive, videoconferencing. When using this medium, students and the instructor at the local site are able to see, hear, and speak with students at the distant sites. The instructor or speaker is able to transmit presentations, images of hard copy documents, and motion video to the students at both locations. The Videoconferencing Center may be scheduled by instructors from any Alamo Community College District department free of charge or may be scheduled, as time allows, by individuals outside the College District by paying a usage and technical support fee. Scheduling of the Videoconferencing Center rooms is coordinated through Instructional Technologies at 210-733-2189, or online at: <http://www.accd.edu/sac/iic/videocon/vi-sched/default.htm>.

## STUDENT LEARNING ASSISTANCE CENTER

The Student Learning Assistance Center (SLAC) supplements classroom instruction by offering learning strategies that enhance the success potential of traditional students in the college environment. The goal of the SLAC is to enable the Alamo Community College District college students to be independent and resourceful learners by providing learning strategies appropriate to non-traditional students and students with diverse learning styles. SLAC develops independent learners by teaching students how to learn rather than merely giving them quick answers. The learning strategies offered through the SLAC include: Tutoring Services, Computer Services, and Study Skill Services.

ACCD students can find assistance for their classes through the SLAC website, [www.accd.edu/sac/slac/slachome/slachome.htm](http://www.accd.edu/sac/slac/slachome/slachome.htm). The SLAC website contains course tutorials, for Mathematics and Accounting, as well as many self-help handouts. Future tutorials will be developed for Chemistry. Currently enrolled ACCD students can also receive free online tutoring by submitting a request through the SLAC website.

## STUDENT AFFAIRS

The **Student Affairs Division** is committed to the success of each student attending San Antonio College. Working collaboratively with students, faculty and staff, the division provides comprehensive services and programs that support and enhance the learning environment.

The **Office of Admissions and Records** maintains the official academic records for San Antonio College. This office assists all students within the educational community with the application process, residency determination, course registration, academic grade transcription and certification of graduation. Students are able to apply for admissions, register for classes and receive information concerning their academic record and graduation in person or via the Internet. In addition to assisting students with record keeping needs, this office is the reporting official with the Texas Higher Education Board for San Antonio College.

The **Department of Counseling and Services for Special Populations** is comprised of many service units with diverse functions; all are directed toward serving the needs and supporting the successes of our every-expanding student

population. The main counseling center provides individual counseling for both education and personal guidance. Additional units assist in career planning, preparation for transfer and job placement while other units address the specific needs of veterans, international students, women and non-traditional students. The Office of Student Development administers the delivery of important orientation information to all new students and provides essential, extended support to students in academic difficulty.

The **Office of Enrollment Management** collaborates with the Office of Admissions and Records, Assessment, and the Counseling and Services for Special Populations Department to provide on-site testing opportunities and develop and implement recruitment and community outreach initiatives that are consistent with the College vision and strategic goals.

The **Office of Student Life** is comprised of several areas all working together to provide a variety of programs and services that enhance the overall college experience. Student Activities provides a wide range of free extracurricular activities such as festivals, novelty acts, karaoke, bands, films and multicultural programs throughout the year. Recreation Sports provides a variety of competitive and noncompetitive sports and recreational activities. The Office of Student Life also sponsors a diverse number of departmental, special interest, religious and honorary student clubs and organizations. As part of the Office of Student Life, the College Health Center offers a number of free services which include: emergency and first aid treatment, over the counter medications, referrals, assistance with student accident/illness insurance and limited health screenings.

**Food Services** are provided through the cafeteria located in the Loftin Student Center. Daily menus provide choices of fast food, prepared meals, snacks and beverages.

The San Antonio College **Bookstore** is operated by an independent commercial firm. The bookstore sells textbooks, instructional supplies, trade books and notions.

## TRANSFER CENTER

In the Transfer Center, students may obtain degree plans, transfer guides for specific majors, and information about Joint Admissions Agreements. Educational directories, university catalogs and Admissions resources are available for student use. Admissions applications and scholarship information are also available. Additionally, the center arranges student appointments for various university admissions representatives. The biannual Transfer Fair provides an opportunity for SAC students to meet with representatives of universities.

### TRANSFER DEGREE PLANS, ARTICULATION AGREEMENTS AND JOINT ADMISSION AGREEMENTS: TRANSFERRING TO FOUR-YEAR INSTITUTIONS

San Antonio College operates in full compliance with the guidelines and policies set forth by the Texas Higher Education Coordinating Board. The Texas legislature has mandated that all Texas post-secondary institutions develop a core curriculum in accordance with the guidelines established and approved by the Coordinating Board and that all Texas public four-year institutions must accept the entire core curricula of any public post-secondary institution as meeting the core curriculum of its institution. San Antonio College's core curriculum will meet the core curriculum of any Texas public university.

However, it benefits the baccalaureate degree-seeking student to consult the Transfer Center concerning transfer degree plans or transfer information, Joint Admission Agreements and course equivalencies. An institution can be unique in discipline requirements and specific in admission requirements. Without a determined degree plan that is compatible with the transfer institution a student may waste time, money and semester hours on courses not applicable to his/her major field of study. Counselors will clarify admission requirements, academic expectations and institutional characteristics.

**2+2 Degree or Transfer Plans** are contractual educational terms that will be honored by a particular transfer institution contingent on academic standards, admission requirements and student performance.

**Articulation Agreements** are defined and signed agreements between San Antonio College and various institutions concerning the transfer of students. Each agreement is tailored to the academic criteria of the transfer institution.

**Joint Admission Agreements** are another form of articulation in which students sign an agreement at a designated university, which allows them to participate in certain areas of the university's community while attending San Antonio College. Upon

completing the prescribed degree plan and meeting the articulated requirements, they transfer. Courses are determined by the transfer institution.

## INSTITUTIONAL RESOURCES

### COLLEGE INFORMATION TECHNOLOGIES

The **College Information Technologies** provides planning, coordination, installation, and support of campus technology and it provides on-site technical assistance to all Faculty, Staff, Student, and Administrative Users. The College Information Technologies provides recommendations for purchasing, equipment setup, installation of hardware and software, implementation of off-campus connectivity, and assists other departments with planning. The College Information Technologies is also in charge of the College Consolidated Purchase Program, the College Consolidated Disposal Program, College Comprehensive Replacement Plan, and the College Comprehensive Reallocation Plan. The College Information Technologies also supervises the training of new and current technical personnel on the San Antonio College Campus.

#### NETWORK SERVICES TEAM

The San Antonio College **Network Services Team** functions as part of the College Information Technologies to provide centralized network services to the San Antonio College campus as well as numerous offsite users (including Northeast Campus and the Central Texas Technology Center). The Network Services Team provides centralized management of Secure Wireless Network Connectivity, Enterprise-Wide Antivirus and Anti-Adware/Spyware Services, Enterprise-Wide Systems Management, and Management of the Centralized Server Core. The Network Services Team also works in conjunction with District Information Systems to manage and support the college network infrastructure, as well as manage a college web server and workgroup email server.

#### FIRST LINE TECHNICAL SUPPORT (FLTS)

**First Line Technical Support** functions in connection with the College Information Technologies in order to provide immediate telephone assistance and trouble shooting for faculty, staff, and students. First Line Technical Support also develops and provides tutorials to assist the Internet (SAC Online) students.

#### DATA MANAGEMENT TEAM

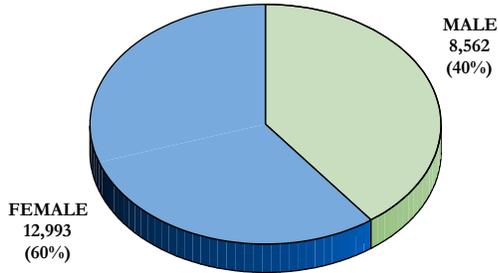

The **Data Management Team**, functioning as part of the College Information Technologies at San Antonio College, provides custom in-house application development. The Data Management Team recommends and produces new solutions as requested by departments, modifications and support of existing applications, and incorporates information from Legacy System into meaningful and useful information for departmental use. The Data Management Team also provides support for the College Decision Support System (a campus Data Warehouse Project).

\* A student who is enrolled in 12 or more semester credit hours at a community college or 8 or more semester credit hours at a technical college.

## SUMMARY DEGREE DATA

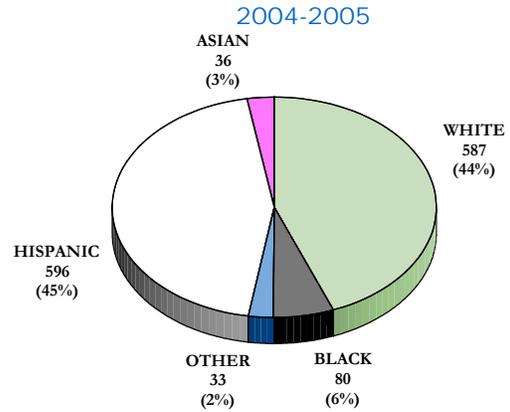

**GRADUATES BY CERTIFICATES & DEGREES AWARDED**

**TOTAL DEGREES: 1,403\***

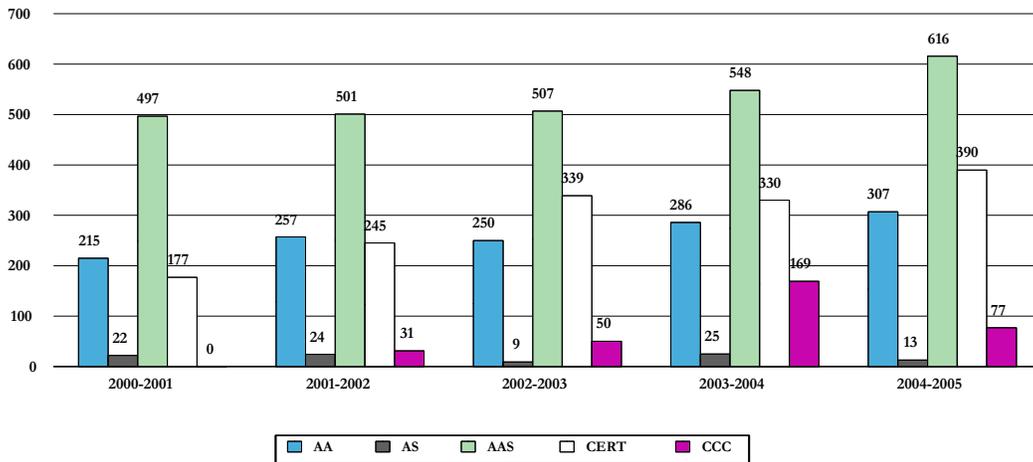

\* Also included are *progress measures* of students who have completed the core curriculum (CCC) and/or approved fields of study.

**GRADUATES BY ETHNICITY**

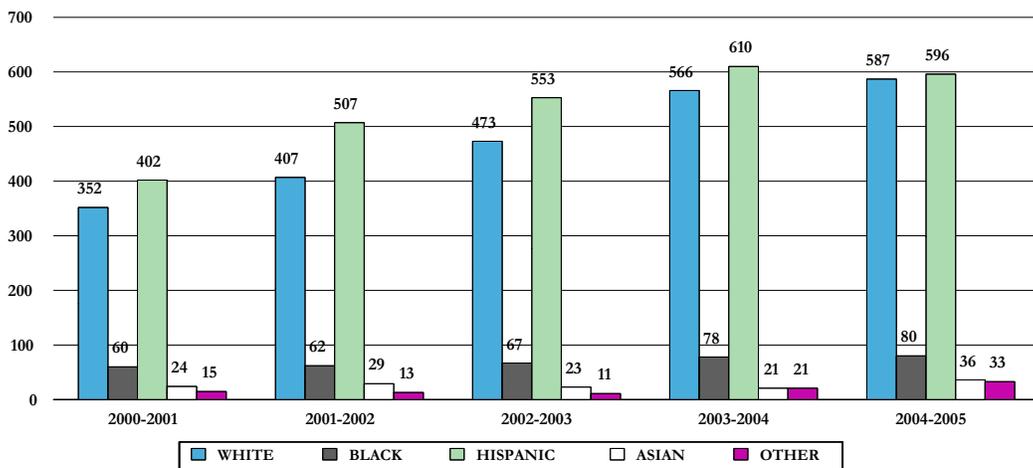

**TOTAL GRADUATES: 1,332**

**CERTIFICATES & DEGREES AWARDED 2000-2001 TO 2004-2005**

**GRADUATES BY ETHNICITY 2000-2001 TO 2004-2005**
