# Alamo Colleges Board Action – Policy Compliance

## December 19, 2023

Revised SPC  
Mission  
Statement

Revised Core  
Competencies

Approval of  
Building  
Names

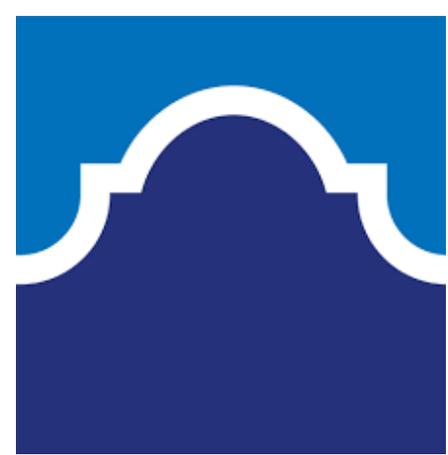

AAS Plumbing  
Degree

# MISSION STATEMENT

**St. Philip's College, a Historically Black College and Hispanic Serving Institution founded in 1898, is a comprehensive public college offering degrees and certificates, whose mission is to empower our diverse student population through educational achievement and career readiness.**

# CORE COMPETENCIES UPDATE

## Quality Instruction for Educational Programs

### ➤ Previous:

A. General courses in arts and sciences leading to an associate degree.

B. Transfer education for students desiring to attend senior institutions.

### ➤ Current:

A. Foundational courses in arts and sciences leading to an associate degree or transfer to attend senior institutions.

# CORE COMPETENCIES UPDATE

## Quality Instruction for Educational Programs

### ➤ Previous:

D. Applied science and technical programs leading to a bachelor degree, associate degree or certificate designed to prepare students for employment and/or to update crucial skills.

E. Workforce and career development training programs for business, industry and government.

### ➤ Current:

C. Applied science and technical programs leading to a bachelor degree, associate degree or certificate designed to prepare students for employment and/or to update crucial skills for success in business, industry and government.

# CORE COMPETENCIES UPDATE

## Student Engagement

### ➤ Previous:

D. Empower students through a commitment to diversity, opportunity and access.

### ➤ Current:

D. Empower students with institutional initiatives and service opportunities that aim to create a sense of belonging with the college and community at large.

# CORE COMPETENCIES UPDATE

## Community Engagement

### ➤ Previous:

B. Equity minded and diverse campus that leverages the San Antonio community's ongoing diversity efforts to create an environment of healing and transformation.

### ➤ Current:

B. Committed campus that leverages our rich historical connection with San Antonio to build pathways for success and engagement for community members.

## INSTITUTIONAL PRIORITIES

- **Previous:**  
Diversity, Equity & Inclusion
- **Current:**  
Institutional Effectiveness and Accessibility

# Board Action – Approval of Building Names

## September 19, 2023

**Bowden Legacy Building (BLB)** - To continue honoring the contributions and legacy of a St. Philip's College prolific figure, Saint Artemisia Bowden, the Bowden Building named in her honor in 1954, is now the Bowden Legacy to differentiate from the St. Artemisia Bowden Center for Excellence. This building is currently under renovation.

**Center for Advocacy and Student Empowerment (CASE)** - To provide wrap-around services and support for students, SPC has renamed the Continuing Education building to Center for Advocacy and Student Empowerment. Opportunities, such as food pantry, personal/mental health counseling, clothing, and financial literacy, that are vital for student success, will be provided in this building.

# Board Action – Approval of Building Names September 19, 2023

**Cybersecurity Innovations Center (CIC)** - To support the pipeline of San Antonio's cybersecurity industry, the renaming of the Campus Center reflects its innovative new purpose as a data center, multi-purpose room, visualization room, collaboration center, interactive display technology classroom, and Heritage Room. In addition, the building will be a central hub for government, university, and industry partners in the cybersecurity field.

# AAS PLUMBING

- Combines Existing Level 1 Certificates
  - Add 1 Workforce Course an internship
  - Add 18 hours of General Education
  - Total 60-hour AAS degree

## Benefits:

Upon completion of the Plumbing Trades AAS degree

- Students can sit for the Tradesman Plumbing License.
- AAS is transferable to TAMUSA, and TX. State for a BAAS for career advancement
- Accelerated time to Master Plumber License. (\$33.00 per hour)
- SPC – SWC can become a testing facility for the Texas Board of Plumbing Examiners

# Great Place to Work Follow Up

St. Philip's College

# GREAT PLACE TO WORK: FOLLOW UP

- **Task:** To address strategic areas identified by Great Place to Work 2023 Survey
  - Equity
  - Collaboration
  - Communication
  - Innovation
- **Solution:** Develop rules of engagement across the College to address three of the four areas
  - Rule of Engagement: A guideline for your team to follow when interacting with each other which is meant to foster a caring environment
- **Process:** Bottom-Up Approach rather than Top-Down Approach
  - Each department had a discussion to develop their own rules of engagement
  - Follow up at the division level to develop consensus around rules of engagement between all individuals in a division and between departments
  - Division Leads and VPs reported out at 2023 Leadership Retreat

# Great Place to Work Follow Up Results: Strategic Areas of Focus

**The same top three strategic areas were identified to focus efforts towards being a “Great Place to Work”**

- Student Success
  - Communication
  - Collaboration
  - Innovation
- Academic Success
  - Communication
  - Collaboration
  - Innovation
- College Services
  - Communication
  - Collaboration
  - Innovation
- President’s Division
  - Communication
  - Collaboration
  - Innovation

# Great Place to Work Follow Up Results: Rules of Engagement

## Common themes among the Rules of Engagement across the College

### Communication

Improve communication tools including SOPs, TEAMS, and other forms of electronic communications

Create space to discuss items openly and be intentional in communication

### Collaboration

Encourage and ensure participation in processes and procedures within area

Develop plans to address projects and initiatives across the College

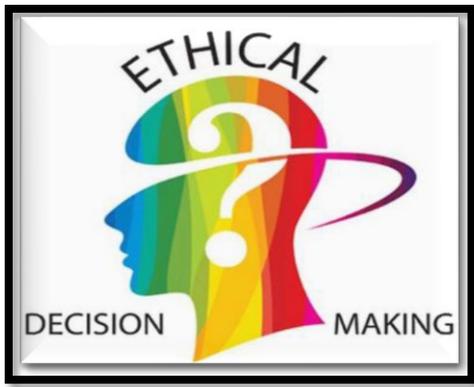

### Innovation

Actively engage in conversation and sharing of ideas

Participate in and promote innovative ideas

# QUALITY ENHANCEMENT PLAN

**QEP Focus Statement:** Ethical Decision-Making is the ability to connect values and choices to actions and consequences.

**Faculty Leads:**

**Andrew Hill, Dr. Marie Feldmeier and Dr. Jamie Hardy**

# ***QUALITY ENHANCEMENT PLAN (QEP): ETHICAL DECISION-MAKING***

## **AI Creates Art**

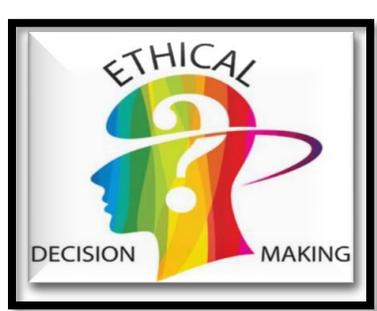

### **The use of AI in culture raises interesting ethical reflections**

A Rembrandt painting, “The Next Rembrandt”, was designed by a computer and created by a 3D printer, 347 years after the painter’s death.

To achieve such technological and artistic prowess, 346 Rembrandt paintings were analyzed pixel by pixel and upscaled by deep learning algorithms to create a unique database. Every detail of Rembrandt’s artistic identity could then be captured and set the foundation for an algorithm capable of creating an unprecedented masterpiece.

To bring the painting to life, a 3D printer recreated the texture of brushstrokes and layers of paint on the canvas for a breath-taking result that could trick any art expert.

But who can be designated as the author? The company which orchestrated the project, the engineers, the algorithm, or... Rembrandt himself?

# ***QUALITY ENHANCEMENT PLAN (QEP): ETHICAL DECISION-MAKING***

Work of art produced by AI requires a new definition of what it means to be an “author”, in order to do justice to the creative work of both the “original” author and the algorithms and technologies that produced the work of art itself.

Creativity, understood as the capacity to produce new and original content through imagination or invention, plays a central role in open, inclusive, and pluralistic societies. For this reason, the impact of AI on human creativity deserves careful attention. While AI is a powerful tool for creation, it raises important questions about the future of art, the rights and remuneration of artists, and the integrity of the creative value chain.

We need to develop new frameworks to differentiate piracy and plagiarism from originality and creativity and to recognize the value of human creative work in our interactions with AI. These frameworks are needed to avoid the deliberate exploitation of the work and creativity of human beings and to ensure adequate remuneration and recognition for artists, the integrity of the cultural value chain, and the cultural sector’s ability to provide decent jobs.

This is why UNESCO adopted the [Ethics of Artificial Intelligence](https://www.unesco.org/en/artificial-intelligence/recommendation-ethics), the very first global standard-setting instrument on the subject: <https://www.unesco.org/en/artificial-intelligence/recommendation-ethics>

# ***QUALITY ENHANCEMENT PLAN (QEP): ETHICAL DECISION-MAKING***

**QEP Focus Statement: Ethical Decision-Making is the ability to connect values and choices to actions and consequences.**

<b>Stop and think</b>	Stop and think to determine the facts
<b>Identify</b>	Identify options
<b>Consider</b>	Consider consequences
<b>Make</b>	Make an ethical choice and take appropriate action

# ***QUALITY ENHANCEMENT PLAN (QEP):*** **ETHICAL DECISION-MAKING**

Stop and think to determine the facts:

1. Original artwork was created and painted by Rembrandt
2. 347 years after Rembrandt's death, AI was used to re-create a replica of the Rembrandt painting, worthy of fooling the art experts
3. An analysis of 346 Rembrandt paintings, broken down pixel by pixel, and then upscaled by deep learning algorithms created the unique database to be able to recreate the masterpiece
4. A 3D printer recreated a replica of the artwork, detailing texture of brushstrokes and layers of paint on the canvas

# ***QUALITY ENHANCEMENT PLAN (QEP): ETHICAL DECISION-MAKING***

## *Identify Options:*

1. Ask permission to replicate Rembrandt's artwork, through the use of AI, from any entity that has legal authority of control of Rembrandt's artwork (If any exist)
2. Recognize that the original artwork is the Rembrandt's artistic freedom of expression and owns the Intellectual Property rights of the painting
3. Recognize the Engineers created the algorithm
4. Recognize the company that developed the project
5. Provide combination recognitions citing references of any of the above

# ***QUALITY ENHANCEMENT PLAN (QEP): ETHICAL DECISION-MAKING***

## Consider Consequences:

1. Denying Rembrandt as the original artist would not give credit to the original artist that created the artwork (intellectual property rights)
2. Denying the company that engineered the process would deny them the credit for replicating the artwork
3. The company that replicated the artwork could be accused of and possibly sued for plagiarism of intellectual property right infringement of Rembrandt's artwork

## ***QUALITY ENHANCEMENT PLAN (QEP):*** **ETHICAL DECISION-MAKING**

The ethical choice and appropriate action:

1. Be transparent and explain how AI contributed to the outcome of the replicated artwork. Give Rembrandt credit for creating the original artwork, but provide recognition to the company that engineered the process for re-creating a replica of the artwork.

# FOOD FOR THOUGHT: ARTIFICIAL INTELLIGENCE

- **Student Success**
  - Vice President Wesley Wells
- **College Services**
  - Interim Vice President George Johnson III

# PROS OF USING AI IN STUDENT SUCCESS: ENROLLMENT MANAGEMENT, ADVISING AND EDUCATIONAL SUPPORT SERVICES

**Personalization:** AI can tailor educational experiences based on individual student needs, providing personalized support and guidance.

**Early Intervention:** AI can identify at-risk students early, enabling timely intervention and support to improve their academic performance.

**Efficiency:** Automation through AI streamlines administrative tasks, allowing educators and advisors to focus more on personalized student interactions.

**Data-Driven Insights:** AI analyzes large datasets, offering valuable insights into student performance, learning patterns, and areas that may need improvement.

**24/7 Accessibility:** AI-driven systems can provide continuous support, offering assistance and resources outside traditional office hours.

# CONS OF USING AI IN STUDENT SUCCESS: ENROLLMENT MANAGEMENT, ADVISING AND EDUCATIONAL SUPPORT SERVICES

**Lack of Human Touch:** AI may struggle to replicate the empathetic and nuanced support that human advisors can offer, especially in complex emotional or personal situations.

**Data Privacy Concerns:** Handling sensitive student data raises privacy issues, requiring robust security measures to protect personal information.

**Bias and Fairness:** If not carefully designed, AI algorithms may perpetuate biases present in historical data, potentially leading to unfair treatment of certain student groups.

**Initial Implementation Costs:** Integrating AI systems into educational institutions can be expensive, requiring investments in technology, training, and ongoing maintenance.

**Resistance to Change:** Students and staff may initially resist AI adoption due to unfamiliarity or concerns about job displacement, necessitating effective change management strategies.

# PROS & CONS OF USING AI IN COLLEGE SERVICES:

## Pros:

- Used in computing to improve efficiencies and improve communication
- Assists with automation of Standard Operational Procedures that create efficient workflows and enhance employee productivity

## Cons:

- Review the product/solution AI provides to ensure operational tolerances are not exceeded
- Failure to validate data provided by AI can lead to misinformation

# Caring Campus: Improving Student Retention and Success

Caring Campus

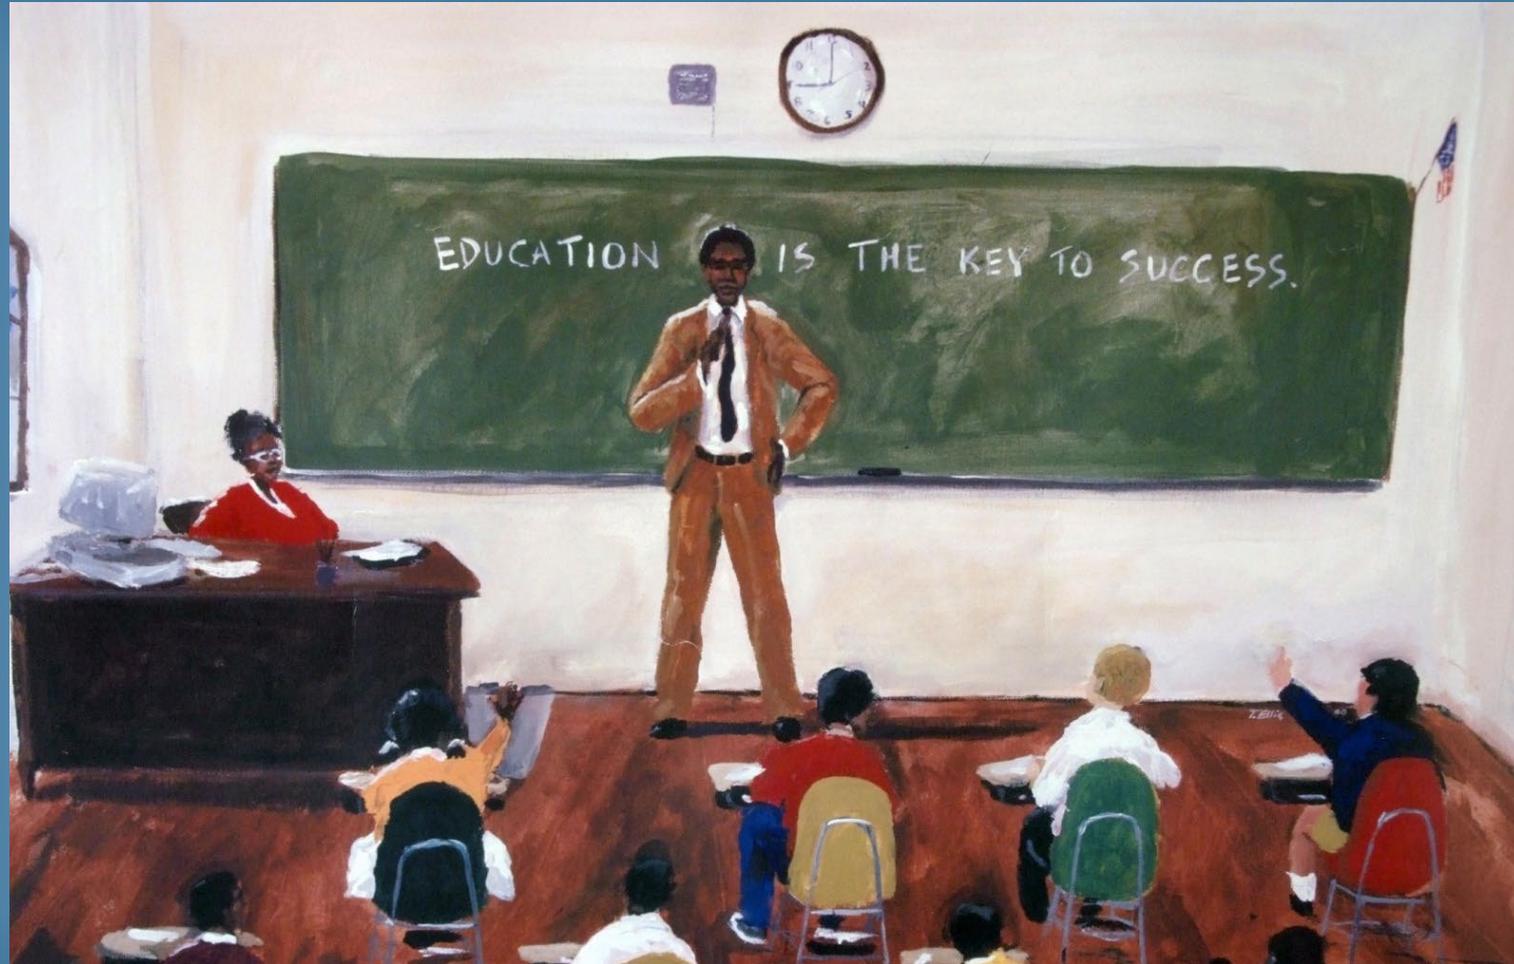

"The Institute for Evidence-Based Change (IEBC) has created *Caring Campus* based on research that shows students who feel more connected to their college are more likely to be retained, persist from semester to semester, and complete their academic goals. Increasing connectedness, therefore, can go a long way toward increasing the likelihood of maintaining enrollment."

# SECRET TO LONGEVITY

“I mind my own business” – Gertha Murphy

HAVE A GREAT SEMESTER!

DON'T FORGET TO TELL YOUR STORY!
